

Snow Plow Reminders

In order to help keep roads and walkways free of snow and ice this winter, please remember these important Sandy City ordinances:

Public Nuisance & Traffic

- Blowing or pushing snow into any city street is prohibited
- Parking overnight on city streets is prohibited from November 1 to April 30
- Parking on city streets is also prohibited during a snow storm or during the 24 hours after the end of a storm
- Police officers are authorized to cite violators or have vehicles removed if they are in violation of these ordinances

Homeowner

- Mail patrons must clear the area in front of their mailbox once plows have been through the neighborhood
- Homeowners are responsible to clear snow from sidewalks in front of their homes within 24 hours of a storm
- For sidewalk snow removal questions or problems call Sandy City Code Enforcement at 568-7254

For additional questions about snow removal contact the Public Works Department at 568-2999. 📞

A Decade of Federal Funding Greatly Enhances City's Transportation System

by Rick Smith, Public Works Director

Senator Bennett, Senator Hatch, and Representative Matheson have each worked very hard for Sandy City to provide millions of dollars in federal funding over the past decade which the city is using to dramatically improve its transportation system. In total the city has benefited from more than \$200 million in funding for over 20 different transportation projects. These projects, which have been administered by both Sandy

One of the many construction projects improving Sandy City's Roadways.

City and the Utah Department of Transportation, have improved the infrastructure as well as addressing the increasing volumes of traffic within the city. Many of these essential projects would have not been possible using local funding alone.

Some of the projects which have been completed or are under construction using federal funds include:

- 2000 East reconstruction from Creek Road to 9400 South
- 10000 South underpass at I-15
- 10600 South reconstruction at I-15
- Light Rail Trail construction from 8400 South to 11400 South
- 9400 South 1300 East intersection reconstruction
- 11400 South State Street intersection reconstruction
- 700 East reconstruction from 9400 South to 10200 South
- State Street reconstruction from 9000 South to 10700 South
- 10600 South reconstruction near State Street
- 9000 South reconstruction near State Street

Other projects that are currently funded and will begin in the near future include:

- 1300 East reconstruction from 7800 South to Draper
- 700 East reconstruction from 10200 South to 10600 South
- 700 East and 9000 South reconstruction
- 11400 South I-15 interchange
- 10600 South improvements from 1300 East to 1700 East
- Freeway beautification at the 10600 South interchange
- 450 West and 9000 South widening

It's easy to see by looking at the list that many of these projects have helped to ease the increasing load of traffic throughout Sandy. Without these vital improvements, moving about the city would be a slower, more dangerous task. 📍
